

Data Science Masters

This is a data science masters course where you will learn all the stack required to work in data science, data analytics, and the big data industry including ML ops and cloud infrastructure. The Data Science Master Course includes the specialization in all the stacks required to work in data science, data analytics, and big data. The Course also provides ML ops and Cloud Infrastructure. In this Data Science Certification course, you will learn data structure and its algorithms for managing data. This will lead you to make an informed decision in data science. The mock test and interview program will give you more exposure to the data science program.

Instructors:

Sunny Bhaveen Chandra:

Sr. Data Scientist and lecturer at iNeuron.ai with working experience in computer vision, natural language processing and embedded systems. Hands-on experience leveraging machine learning, deep learning, transfer learning models to solve challenging business problems. Also, he has a vast interest in Robotics.

- github: <https://github.com/sourangshupal>

Khushali Shah:

A data scientist having rich experience working with MNCs and start-ups in the field of data science and machine learning. She has expertise in Chatbot development for various

domains & been developing professionally for 6+ years with diverse job history. She also had positions in software module development, web app development, functional designs, requirement gathering, client interaction, and server setup/admin & can help everywhere in the stack; she loves wearing multiple hats to an extent. She also believes in enhancing her skills by training and learning new things day by day.

Sudhanshu Kumar:

Having 8+ years of experience in Big data, Data Science and Analytics with product architecture design and delivery. Worked in various product and service based Company. Having an experience of 5+ years in educating people and helping them to make a career transition.

- linkedin: <https://www.linkedin.com/in/-sudhanshu-kumar/>
- youtube: <https://www.youtube.com/c/sudhanshukumarall>

Curriculum:

- Python
- Stats
- Machine learning
- Deep learning

- Computer vision
- Natural language processing
- Data analytics
- Big data
- ML ops
- Cloud
- Data structure and algorithm
- Architecture
- Domain wise project
- Databases
- Negotiations skills
- Mock interview
- Interview preparation
- Resume building after every module

Requirements:

- Dedication
- Computer with i3 and above configuration
