Machine Learning Bootcamp Tech Neuron

In this Machine Learning Bootcamp you will learn technologies like Python, API, database, statistics, ML algorithms, deployment of ML models in various cloud platforms, and all machine learning algorithms. You will also learn about chatbots like Dialogflow, Amazon Lex, Azure Luis & RASA NLU. 15+ live projects are included to make your journey interesting from Zero to ML Engineer.

Instructors:

krish naik:

Having 10+ years of experience in Data Science and Analytics with product architecture design and delivery. Worked in various product and service based Company. Having an experience of 5+ years in educating people and helping them to make a career transition.

Sunny Savita:

I'm an AI enthusiast, graduate in Computer science and engineering. Currently working with iNeuron.ai as a Data Scientist and having 2+ years of experience. I have skills in big data, machine learning, computer vision, Natural language processing. My expertise also includes project design development and implementation with AIOps tools.

Curriculum:

- Python

- APIs

- Databases

- Python projects

- Numpy

- Pandas

- Visualizations

- Stats

- Supervised Machine learning Algorithms

- Unsupervised Machine learning Algorithms

- Dimensionality Reduction

- Machine Learning Projects

- Deep learning

- PowerBI

- Tableau

- Chatbots

Requirements:

- Dedication

- Laptop with internet connectivity
